(54) (57) METHOD FOR REPAIR OF CASINGS,

including lowering into the well of a patch of length greater than the damaged section of casing, expanding it and squeezing it against the casing by creating radial loads, *distinguished by the fact that*, with the aim of reducing the stresses arising in the body of the casing in the damaged section, radial loads are created on the patch above and below the damaged section of the casing that are larger than the radial loads on the patch corresponding to the damaged section of the casing.

AFFIDAVIT OF ACCURACY

I, Kim Stewart, hereby certify that the following is, to the best of my knowledge and belief, true and accurate translations performed by professional translators of the following Patents and Abstracts from Russian to English:
